

SUPER AMINO

Premium Amino Acid Plant Growth Promoter

SUPER AMINO is an advanced amino acid based bio-stimulant formulation developed to enhance plant growth, flowering, fruit development, and stress tolerance. It supports healthy crop metabolism and improves nutrient utilization for better productivity and crop quality.

Key Benefits:

- Enhances plant growth and vigor.
- Improves flowering and fruit setting.
- Helps plants recover from stress conditions.
- Improves nutrient absorption efficiency.
- Supports better crop color, shine, and quality.
- Suitable for vegetables, fruits, field crops, and horticulture.

Usage & Dosage Information

SUPER AMINO can be applied through foliar spray and drip irrigation for promoting healthy crop growth and higher productivity.

Crop Type	Application Purpose	Recommended Dosage
Vegetables	Growth & Flowering	2 – 3 ml per liter
Fruit Crops	Fruit Development	3 – 4 ml per liter
Field Crops	Plant Vigor	2 – 3 ml per liter
General Spray	Preventive Nutrition	250 – 500 ml / acre

Precautions

- Shake well before use.
- Store in a cool and dry place.
- Keep away from children and direct sunlight.
- Use recommended dosage only.
- For agricultural use only.
